

STRICTLY PRIVATE AND CONFIDENTIAL

# Green Square and L'avenir

Two commercial and office developments, El Mostakbal City, Cairo

**Private placement: combined investor ticket of EGP 125 million (EGP 62.5 million in each project)**

**ALL INFORMATION IN THIS PRESENTATION IS CONFIDENTIAL AND SUBJECT TO THE NON-DISCLOSURE AGREEMENT. Do not copy, forward or disclose it.**

# Investment highlights

**26,442 m<sup>2</sup>**

Combined built-up area, G+2: 13,023 and 13,419 m<sup>2</sup>

**M48 and  
M54**

Handover months: Green Square and L'avenir

**EGP 4.93 bn**

Combined sales plan: 80% of units sold, at modelled prices

**35 / 65**

Revenue split with the landowner (Al Ahly Sabbour) and Jalour, in both projects

- One investor, EGP 125 million: EGP 62.5 million in each project. The landowner owns the land; Jalour designs, permits, builds, markets, sells, collects and operates.
- Option A: units with a face value of EGP 250 million in total (2.0x) at launch list. Projected investor IRR 27.7% (base), 19.5% downside.
- Option B: cash of EGP 287.5 million (2.3x) in 12 quarterly instalments per project after a 24-month grace. Projected investor IRR 26.5%.
- Each project sits in its own company, with no cross-collateral and no cross-default.

# Transaction overview

| Term                      | Summary                                                                                                                                                                            |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Investor ticket</b>    | EGP 125 million in total (USD 2.6 million at EGP 48 per USD): EGP 62.5 million in Green Square and EGP 62.5 million in L'avenir                                                    |
| <b>Issuers</b>            | One project company for each development (names, jurisdiction and instrument to be confirmed by counsel)                                                                           |
| <b>Use of proceeds</b>    | Down payments to the landowner, guarantee instalments and working capital to each funding peak, and pre-construction costs (modelled need EGP 113.0 million and EGP 112.5 million) |
| <b>Option A: units</b>    | Units with a face value of EGP 125 million in each project at launch list prices (EGP 250 million in total), from the first two sales tranches of each                             |
| <b>Option B: cash</b>     | EGP 143.75 million from each project (EGP 287.5 million in total) in 12 equal quarterly instalments of EGP 11.98 million each, after a 24-month grace period                       |
| <b>Choice</b>             | The investor chooses Option A or Option B at signing; the choice applies to both projects                                                                                          |
| <b>Balance of funding</b> | The balance of project funding is provided by Jalour sponsor equity, project collections and other capital sources. This applies in each project.                                  |
| <b>Further capital</b>    | Jalour may raise further capital at project or holding level, subject to the investor's stated rights (ranking, collateral, information rights)                                    |

# Market: Cairo office and commercial supply and demand

**73%**

of Cairo office stock, current and future, is in New Cairo

**~9%**

office vacancy, stable (Q1 2026); Grade A occupancy about 90%

**+82%**

office pipeline to 2029 relative to current stock: supply is the main risk

**USD 348**

Grade A rent per m2 per year in New Cairo business parks (Q2 2026)

- Mostakbal City covers about 11,000 feddans, with a planned population of about 1 million; master developer is the state-linked Mostakbal for Urban Development (MIDAR).
- Connected by the Regional (Middle) Ring Road and the East Cairo monorail corridor to Shorouk, Obour, Badr and the New Administrative Capital.
- Cairo retail stock above 3.3 million m2 after about 89,000 m2 delivered in Q1 2026, mostly small malls in New Cairo and Giza; about 331,300 m2 more due by end 2026.
- Comparable commercial schemes are under way: Hassan Allam's HAPTOWN (offices G+1 to G+4, retail, healthcare) in Mostakbal City.

*Source: Knight Frank (via Arabian Business, Jul 2026; Enterprise, Jul 2026); JLL Q1 2026 (via Invest-Gate); MIDAR; Nawy; Bayut; Invest-Gate. Knight Frank and JLL use different office-stock definitions.*

# Market: pricing evidence and demand drivers

| Indicator        | Evidence                                                                                   | Plan                                                                                        |
|------------------|--------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| Office prices    | Mostakbal City listings: EGP 106,000 to 120,000 per m2 (asking)                            | Launch EGP 135,000 (Green Square) and 160,000 (L'avenir); delivery list 200,000 and 240,000 |
| Retail prices    | New Cairo listings: EGP 139,000 to 325,000 per m2 (asking, individual listings)            | Launch EGP 225,000 and 250,000; delivery list 300,000 and 360,000                           |
| Price growth     | New Cairo secondary prices +3.1% y/y (Q1 2026); broker estimates 10 to 16% a year for 2026 | Launch to delivery list: offices +48% / +50%; retail +33% / +44%                            |
| Offices vs today | Asking prices today, mid-point EGP 113,000                                                 | Delivery list +77% (about 15% a year) and +112% (about 18% a year)                          |
| Interest rates   | CBE overnight deposit rate 19.00% (Sep 2026); urban inflation 14.5% (Aug 2026)             | Discount rate 14% in the model                                                              |
| Developer sales  | Top 10 developers EGP 670 bn in H1 2026, +2.9% y/y; units sold -5%                         | Sales over about 3 years from launch                                                        |

Reading across: both plans need price growth at the upper end of recent evidence. The downside case on slide 15 tests lower prices and later sales.

*Source: Property Finder listings (2026); JLL via Enterprise (2026); Sands of Wealth (2026); CBE via Bnok24; CAPMAS via Ahram Online; Daily News Egypt. Listings are asking prices, not transactions. Model timeline assumed to start December 2026.*

# The two projects

| Item                      | Green Square    | L'avenir        |
|---------------------------|-----------------|-----------------|
| Land area (m2)            | 14,470          | 14,910          |
| Footprint, 30% (m2)       | 4,341           | 4,473           |
| Height                    | G+2             | G+2             |
| Retail built-up area (m2) | 4,341           | 4,473           |
| Office built-up area (m2) | 8,682           | 8,946           |
| Total built-up area (m2)  | 13,023          | 13,419          |
| Finishing standard        | Core and shell  | Core and shell  |
| Sales start               | Month 7         | Month 13        |
| Construction              | Months 13 to 48 | Months 19 to 54 |
| Handover                  | Month 48        | Month 54        |

Source: Jalour financial model (project summaries). Jalour retains 20% of units in each project, outside the sales plans and outside this offering.

# Partnership with Al Ahly Sabbour and the revenue share

## Al Ahly Sabbour

Landowner of both plots. Receives 35% of collections, subject to a minimum guarantee.

## Jalour

Developer and operator. Keeps 65% of collections. Carries design, permits, core-and-shell construction, marketing, sales, collection and operation costs.

- Minimum guarantee EGP 800 million (Green Square) and EGP 850 million (L'avenir) over six years; down payments EGP 80 and 85 million (10%) paid up front.
- Landlord share is 35% of collections or the guaranteed instalment, whichever is higher; any excess is settled from year 8.
- Allocation of units, assignment of collections or any encumbrance affecting the landlord share requires the landlord's written consent.

Source: Jalour financial model (landlord terms); agreement terms to be confirmed in the data room.

# Jalour Developments: role and track record

## Role in both projects

- Design and permits
- Construction to core-and-shell standard
- Marketing, branding and sales
- Collection of instalments
- Operation, management and maintenance, directly or through a facility management company
- Covers project funding gaps from its cash reserves and cash from other projects it is constructing (to be documented)

## Track record and team

- Completed projects, area delivered and units handed over
- Management team biographies
- Audited financial statements of Jalour and Al Jalal Holding
- References from landlords, contractors and buyers
- All provided after the investor signs a non-disclosure agreement

*Source: Jalour Developments is the real estate arm of Al Jalal Holding, Cairo. Sponsor materials are provided after the investor signs a non-disclosure agreement.*

# Sales plan and pricing

Green Square: sales value by quarter (EGP million)

L'avenir: sales value by quarter (EGP million)

| EGP thousand per m2 | Retail launch | Retail delivery list | Offices launch | Offices delivery list | Total sales at 100% / 80% (EGP m) |
|---------------------|---------------|----------------------|----------------|-----------------------|-----------------------------------|
| Green Square        | 225           | 300                  | 135            | 200                   | 2,816 / 2,253                     |
| L'avenir            | 250           | 360                  | 160            | 240                   | 3,342 / 2,674                     |

Payment plans: down payment 5% to 20%, equal second payment after three months, instalments of 2 to 8 years and a delivery payment of 20% to 25%, collected on a contractual milestone ahead of handover.

Source: Jalour financial model (sales sheets). Prices are model assumptions; see slide 5 for market evidence.

# Collections, costs and cash flow

**375 / 595**

Net cash flow, nominal: Green Square / L'avenir  
(EGP million)

**215 / 308**

NPV at 14% (EGP million)

**102.5 / 102.0**

Peak cumulative shortage (EGP million)

Source: Jalour financial model; Financial Annex, GS\_Project\_CF and LA\_Project\_CF sheets. Project years: Y1 = months 1 to 12. Excludes the 20% of units retained by Jalour.

# Combined cash position: Green Square and L'avenir

| Peak shortage (EGP m)         | Green | L'avenir | Combined |
|-------------------------------|-------|----------|----------|
| Base                          | 103   | 102      | 168      |
| Delivery payments at handover | 269   | 244      | 318      |
| Collections slip 2 quarters   | 236   | 381      | 478      |
| Sales +12 months, prices -10% | 441   | 849      | 1,089    |

| Investor pooled cash after tickets and payouts (Option B) | EGP m  |
|-----------------------------------------------------------|--------|
| Base, lowest                                              | -43.0  |
| Delivery payments at handover, lowest                     | -301   |
| Sales +12 months, prices -10%, lowest                     | -1,144 |

- Base case: the combined position is lowest at EGP 168.0 million in month 15 and turns positive in month 30.
- In the stress cases both projects are short at the same time, so one project's cash cannot be assumed to fund the other. No cross-collateral or cross-default between the projects.

Source: Jalour financial model; Financial Annex, Combined\_Position and Combined\_Summary sheets. Projections, not guarantees.

# Sources and uses of funds, by project

| Green Square                                          | EGP million |
|-------------------------------------------------------|-------------|
| Down payment to landowner                             | 80.0        |
| Guarantee instalments and working capital to the peak | 22.5        |
| Design, permits, pre-construction (assumption)        | 10.5        |
| Total uses at peak                                    | 113.0       |
| Investor ticket                                       | 62.5 (55%)  |
| Balance of project funding                            | 50.5        |

| L'avenir                                              | EGP million |
|-------------------------------------------------------|-------------|
| Down payment to landowner                             | 85.0        |
| Guarantee instalments and working capital to the peak | 17.0        |
| Design, permits, pre-construction (assumption)        | 10.5        |
| Total uses at peak                                    | 112.5       |
| Investor ticket                                       | 62.5 (56%)  |
| Balance of project funding                            | 50.0        |

- The balance of project funding is provided by Jalour sponsor equity, project collections and other capital sources.
- Modelled peak cumulative shortage: Green Square EGP 102.5 million (ticket 61% of it); L'avenir EGP 102.0 million (ticket 61%).
- If delivery payments arrive at handover the peak shortage is EGP 269 million and EGP 244 million. Jalour will cover gaps above project cash from its cash reserves and cash from other projects it is constructing.
- Nothing in this structure is ring-fenced: each ticket is project funding.

Source: Financial Annex, GS\_Sources\_Uses and LA\_Sources\_Uses sheets. Pre-construction cost is an assumption pending Jalour's budget.

# Option A (units) and Option B (cash) side by side

| EGP 125 million combined        | Option A: units                                                                                    | Option B: cash                                                                      |
|---------------------------------|----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| <b>Entitlement</b>              | Units with a face value of EGP 250 million (2.0x): EGP 125 million in each project, at launch list | EGP 287.5 million (2.3x): EGP 143.75 million from each project                      |
| <b>Timing</b>                   | Allocation at signing; handover months 48 and 54; resale from three months later                   | Grace 24 months; 12 quarterly instalments per project, months 30 to 63 and 39 to 72 |
| <b>Price exposure</b>           | Yes: value moves with Mostakbal City prices                                                        | No unit price exposure; fixed instalments                                           |
| <b>Projected IRR, base</b>      | 27.7%                                                                                              | 26.5%                                                                               |
| <b>Projected multiple, base</b> | 2.83x                                                                                              | 2.30x                                                                               |
| <b>Upside IRR</b>               | 30.6% (3.11x)                                                                                      | Contractual: 26.5% if paid                                                          |
| <b>Downside IRR</b>             | 19.5% (2.54x)                                                                                      | Contractual: 26.5% if paid; depends on Jalour funding                               |
| <b>Payback (month)</b>          | 57                                                                                                 | 48                                                                                  |
| <b>Main risk</b>                | Resale price and timing; consents to assign                                                        | Payment capacity during the construction peaks                                      |

Source: Financial Annex, Combined\_Summary sheet. Projections; downside = sales delayed 12 months and prices 10% lower. One option applies to both projects.

# Security package and investor protections

## Proposed base package, in each project

- Option A: a registered allocation of specific units from the first two sales tranches; the units are the investor's asset
- Option B: earmark of specific unsold units with a list value of at least the ticket, with a right to substitute equal value
- Payment priority covenant: no shareholder distributions or shareholder-loan repayments while an instalment is overdue
- Negative pledge on the earmarked units
- Information rights: monthly reporting and audit rights
- Sponsor funding undertaking for project gaps from Jalour cash reserves and other projects' cash; no guarantee of return

## Optional and for counsel

- Promissory note or post-dated cheques for each Option B instalment (common practice in Egypt)
- Independent engineer reporting on construction progress
- Step-in right to market the earmarked units after a payment default
- Landlord acknowledgement of the unit allocation
- Parent guarantee: not offered in this structure
- Each project has its own security; there is no cross-collateral or cross-default

*Source: Proposal for review by Jalour's lawyers. Landlord consent is required for any allocation or encumbrance affecting its 35% share.*

# Returns and sensitivity

| Project case                  | Green NPV | Peak | L'avenir NPV | Peak |
|-------------------------------|-----------|------|--------------|------|
| Base                          | 215       | 103  | 308          | 102  |
| Prices -10%                   | 116       | 114  | 204          | 138  |
| Prices +10%                   | 315       | 103  | 412          | 88   |
| Sales delay 12 months         | 49        | 408  | 126          | 779  |
| Cost overrun +10%             | 162       | 103  | 258          | 117  |
| Collections slip 2 quarters   | 125       | 236  | 209          | 381  |
| Delivery payments at handover | 155       | 269  | 275          | 244  |

- Option A break-even: the units can fall to 36% (Green Square) and 35% (L'avenir) of the delivery list price before the ticket is lost.
- Option B: pooled cash covers each instalment at least 2.5x; net cash flow alone covers it in 4 of 12 quarters (Green Square) and 9 of 12 (L'avenir) because of the construction peaks.
- Returns are projections, not guarantees.

# Risks and mitigants

| Risk                                                                                 | Mitigant                                                                                                    |
|--------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| Market and price: plans assume list-price rises of 33% to 50% over the sales windows | Downside case shown; Option B has no unit price exposure; price evidence in the data room                   |
| Delivery payments collected ahead of handover                                        | Contractual milestone; Jalour covers any gap from cash reserves and other projects' cash; stress case shown |
| Both projects short at the same time in stress cases                                 | Combined view disclosed; funding capacity beyond these two projects evidenced after NDA                     |
| Construction cost and inflation (costs flat in the model)                            | Cost +10% case; fixed-price contracting to be sought; contingency 5% in the model                           |
| Landlord: consent and minimum guarantee payments                                     | Written consent as a condition precedent; guarantee schedules funded in the plans                           |
| Legal and regulatory: private placement, off-plan rules, assignment of contracts     | Counsel review before signing; developer and landlord consent mechanics defined                             |
| Currency: EGP returns; USD value may fall                                            | USD equivalents shown at EGP 48; foreign investors take FX advice                                           |
| Concentration: two projects, one city, one landowner                                 | Each project has its own company, security and reporting; no cross-collateral or cross-default              |

# Timeline and milestones

- Funding: Green Square in month 3 and L'avenir in month 12, each when the down payment falls due.
- Option A: units allocated at signing and delivered at each handover; resale after consents.
- Option B: 24-month grace, then 12 quarterly instalments per project.

*Source: Jalour financial model; Financial Annex. Months count from the start of the model timeline.*

# The ask and next steps

Jalour invites a combined investment of EGP 125 million: EGP 62.5 million in Green Square and EGP 62.5 million in L'avenir, with the choice of Option A (units, 2.0x face value) or Option B (cash, 2.3x over 3 years after a 24-month grace period).

- 1 Sign the non-disclosure agreement (template provided)
- 2 Review the investment presentation, memorandum and financial annex
- 3 Receive sponsor, permit and landlord documents; select Option A or Option B
- 4 Due diligence, landlord consent and definitive documents
- 5 Signing and funding

Jalour may raise further capital at project or holding level, subject to the investor's stated rights. Projections are not guarantees. All information in this presentation and in the other documents of this pack is confidential and subject to the non-disclosure agreement.
